The Moth: Occasional Magic

Now re-published with additional and updated text, the third edition of the renowned guide to British macro lepidoptera contains two new plates of additional species plus a further group of colour plates comparing critical species in a new style to aid identification of groups of moths. The last twenty-five years since the publication of the first edition have seen a steady increase in our knowledge of British macro moths, their distribution, history and habits, and this new edition will bring to both the new and experienced student of the group, the latest overview of current status of resident, immigrant and historical records. Since the publication of the second edition very significant changes in behaviour and distribution, perhaps associated with climate change, have made it desirable to update much of the basic text.

The Moth Snowstorm

As a diversion from his job in his uncle's carpentry shop, newly arrived Robert Bradley began to explore the Durham countryside. It was on one of these walks that he met Millie, the ethereal girl-child whose odd ways and nocturnal wanderings had led her to be known locally as Thorman's Moth.

Night and Day

After the international success of his collection of World War II newspaper articles, German Autumn—a book that solidified his status as the most promising and exciting writer in Sweden—Stig Dagerman was sent to France with an assignment to produce more in this journalistic style. But he could not write the much-awaited follow-up. Instead, he holed up in a small French village and in the summer of 1948 created what would be his most personal, poignant, and shocking novel: A Burnt Child. Set in a working-class neighborhood in Stockholm, the story revolves around a young man named Bengt who falls into deep, private turmoil with the unexpected death of his mother. As he struggles to cope with her loss, his despair slowly transforms to rage when he discovers his father had a mistress. But as Bengt swears revenge on behalf of his mother’s memory, he also finds himself drawn into a fevered and conflicted relationship with this woman—a turn that causes him to question his previous faith in morality, virtue, and fidelity. Written in a taut and beautifully naturalistic tone, Dagerman illuminates the rich atmospheres of Bengt’s life, both internal and eternal: from his heartache and fury to the moody streets of Stockholm and the Hitchcockian shadows of tension and threat in the woods and waters of Sweden’s remote islands. A Burnt Child remains Dagerman’s most widely read novel, both in Sweden and worldwide, and is one of the crowning works of his short but celebrated career.
This book presents a historical overview of A Midsummer Night's Dream in performance, recommends film versions, takes a detailed look at specific productions and includes interviews with three leading Directors - Michael Boyd, Gregory Doran and Tim Supple - so that we may get a sense of the extraordinary variety of interpretations that are possible - a variety that gives Shakespeare his unique capacity to be reinvented and made 'our contemporary' four centuries after his death.

The Moth This book contains four chapters. Chapter 1 is an introduction to moths. It describes their history, differences with butterflies and skippers, classification, camouflage, navigation, attraction to light, and migration. Moths are useful as bio-indicators, pollinators, dispersal of seeds and producers of useful products (silk). They are harmful as agricultural and stored-grain pests, but can be controlled biologically and with pesticides. Chapter 2 reports that among moth pests the potato tuber moth, Phthorimaea operculella Zeller, is considered one of the most important potato pests worldwide. In Chapter 3, the pathogenicity of three native isolates of the entomopathogenic fungus Beauveria bassiana were studied in different concentrations of P. operculella eggs. The most pathogenic isolate was determined on eggs in vitro. Chapter 4 highlights several case studies representing long-term field research results of moth pests in maize, Zea mays L., and sugar-beet, Beta vulgaris L.

Moth In the summer of 1780, on the tiny island of Merryapple, burly fisherman Robin Shipp lives a simple, quiet life in a bustling harbour town where most of the residents dislike him due to the actions of his father. With a hurricane approaching, he nonetheless convinces the villagers to take shelter in the one place big enough to hold them all—the ancient, labyrinthine tavern named the Moth & M oon. While trapped with his neighbours during the raging storm, Robin inadvertently confronts more than the weather, and the results could change everything.

Life After Death “An outstanding book.” — The Wall Street Journal * “Gripping at every turn.” — Outside * “A gem of a book.” — The Guardian * “A hell of a ride.” — The Times (London) An extraordinary true story about one man’s attempt to save the wounds of war and save his own soul through an audacious adventure. In the 1930s, as official government expeditions set their sights on conquering Mount Everest, a little-known World War I veteran named Maurice Wilson conceives his own crazy, beautiful plan: he will fly a plane from England to Everest, crash-land on its lower slopes, then become the first person to reach its summit—all utterly alone. Wilson doesn’t know how to climb. He barely knows how to fly. But he has the right plane, the right equipment, and a deep yearning to achieve his goal. In 1933, he takes off from London in a Gipsy Moth biplane with his course set for the highest mountain on earth. Wilson’s eleven-month journey to Everest is wild: full of twists, turns, and daring. Eventually, in disguise, he sneaks into Tibet. His icy ordeal is just beginning. Wilson is one of the Great War’s heroes, but also one of its victims. His hometown of Bradford in northern England is ripped apart by the fighting. So is his family. He barely survives the war himself. Wilson returns from the conflict unable to cope with the sadness that engulfs him. He begins a years-long trek around the world, burning through marriages and relationships, leaving damaged lives in his wake. When he finally returns to England, nearly a decade after he first left, he finds himself falling in love once more—this time with his best friend’s wife—before depression overcomes him again. He emerges from his funk with a crystalline ambition. He wants to be the first man to stand on top of the world. Wilson believes that Everest can redeem him. This is the tale of an adventurer unlike any you have ever encountered: complex, driven, wry, haunted, and fully alive. He is a man written out of the history books—dismissed as an eccentric, and gossiped about because of rumors of his transvestism. The Moth and the Mountain restores Maurice Wilson to his rightful place in the annals of Everest and tells an unforgettable story about the power of the human spirit in the face of adversity.

The Moths and Other Stories In 1975 Annie Dillard took up residence on an island in Puget Sound in a wooden room - one enormous window, one cat, one spider and one person. For the next two years she asked herself questions about time, reality, sacrifice and death. In Holy the Firm she writes about a moth consumed in a candle flame, about a seven-year-old girl burned in an aeroplane accident, about a baptism on a cold beach. But behind the moving curtain of what she calls 'the hard things - rock mountain and salt sea', she sees, sometimes far off and sometimes as close by as a veil or air, the power play of holy fire. Holy the Firm is a profound and breath-taking book about the natural world by a Pulitzer Prize winner and one
of the most influential figures in contemporary non-fiction.

A Midsummer Night's Dream

A Burnt Child A snapshot of the life on a London street one wintry evening, through the eyes of one of the most wonderfully descriptive writers of the twentieth century.
Thoughts on Peace in an Air Raid 'The Germans were over this house last night and the night before that. Here they are again. It is a queer experience, lying in the dark and listening to the zoom of a hornet, which may at any moment sting you to death. It is a sound that interrupts cool and consecutive thinking about peace. Yet it is a sound - far more than prayers and anthems - that should compel one to think about peace. Unless we can think peace into existence we - not this one body in this one bed but millions of bodies yet to be born - will lie in the same darkness and hear the same death rattle overhead.' Throughout history, some books have changed the world. They have transformed the way we see ourselves and each other. They have inspired debate, dissent, war and revolution. They have enlightened, outraged, provoked and comforted. They have enriched lives and destroyed them. Now Penguin brings you the works of the great thinkers, pioneers, radicals and visionaries whose ideas shook civilization and helped make us who we are.

Mimesis This selection brings together thirty of Woolf's best essays across a wide range of subjects including writing and reading, the role and reputation of women writers, the art of biography, and the London scene. The Moth & the Flame They say the world used to turn. They say that night would follow day in an endless dance. They say that dawn rose, dusk fell, and we worshiped both sun and stars. That was a long time ago. My people are the fortunate. We live in daylight, blessed in the warmth of the sun. Yet across the line, the others lurk in eternal night, afraid and alone in the dark. I was born in the light. I was sent into darkness. This is my story. Moth -- an epic fantasy for fans of The Hobbit and The Lord of the Rings.

Batman: Gotham Nights (2020-) #7 A great, rhapsodic, urgent book full of joy, grief, rage and love. . . . A must-read' Helen Macdonald, author of H is for Hawk Nature has many gifts for us, but perhaps the greatest of them all is joy; the intense delight we can take in the natural world, in its beauty, in the wonder it can offer us, in the peace it can provide - feelings stemming ultimately from our own unbreakable links to nature, which mean that we cannot be fully human if we are separate from it. In The M oth Snowstorm Michael MCarthy, one of Britain's leading writers on the environment, proposes this joy as a defence of a natural world which is ever more threatened, and which, he argues, is inadequately served by the two defences put forward hitherto: sustainable development and the recognition of ecosystem services. Drawing on a wealth of memorable experiences from a lifetime of watching and thinking about wildlife and natural landscapes, The M oth Snowstorm not only presents a new way of looking at the world around us, but effortlessly blends with it a remarkable and moving memoir of childhood trauma from which love of the natural world emerged. It is a powerful, timely, and wholly original book which comes at a time when nature has never needed it more.

The Essays of Virginia Woolf: 1904-1912 At an exclusive girls' boarding school, a sixteen-year-old girl records her most intimate thoughts in a diary. The object of her obsession is her room-mate, Lucy Blake, and Lucy's friendship with their new and disturbing classmate, Ernessa is a mysterious presence with pale skin and hypnotic eyes. Around her swirl dark secrets and a series of ominous disasters. As fear spreads through the school, fantasy and reality mingle into a waking nightmare of gothic menace, fuelled by the lusts and fears of adolescence. And at the centre of the diary is the question that haunts all who read it: Is Ernessa really a vampire? Or is the narrator trapped in her own fevered imagination?

The Moth and Moon Night and Day, Virginia Woolf's second novel, is both a love story and a social comedy in the tradition of Jane Austen; yet it also questions that tradition, recognizing that the goals of society and the individual may not necessarily coincide. At its centre is Katharine Hilbery, the beautiful grand-daughter of a great Victorian poet. She must choose between becoming engaged to the oddly prosaic poet William Rodney and her attraction to Ralph Denham, with whom she feels a more profound and disturbing affinity. Katharine's hesitation is vividly contrasted with the approach of her friend Mary Datchet, dedicated to the Women's Rights movement. The ensuing complications are underlined to some extent unravelled by Katharine's mother, Mrs Hilbery, whose struggles to weave together the known documents, events and memories of her father's life into a coherent biography reflect Woolf's own sense of the unique and elusive nature of experience.

The Odd 1s Out This volume aims to situate Virginia Woolf as a writer who, despite her fame as a leading modernist, also drew on a rich literary and cultural heritage. The chapters in this volume explore the role her family heritage, literary tradition and heritage locations play in Woolf's works, uncovering the influence the past had on her work, and particularly her deep indebtedness to the Victorian period in the process. It looks at how she reimagined heritage, including her queer readings of the past. This volume also aims to examine Woolf's own literary legacy: with essays examining her reception in Romania, Poland and France and her impact on contemporary writers like Alice Munro and Lidia Yuknavitch. Lastly, Woolf's standing in the increasingly popular field of biofiction is explored. The collection features an extended chapter on Virginia Woolf's relationship with her cousin H.A.L. Fisher by David Bradshaw, and an extended chapter by Laura Marcus on Woolf and the concept of shame.
