Are great leaders born or made? This text addresses such fundamental questions via a comprehensive and critical approach to the discussion of key leadership theories. The text encourages the reader to consider the role of both follower and leader in the leadership process, and to recognise the emergence of both effective, and destructive, leadership. Each chapter features ‘Expert Insights’ on leadership, written by leaders in their respective fields. These insights offer the reader a valuable real-world perspective of leadership that enriches the abstract theory covered in each chapter. The provision of case studies, examples and supplementary online material provide the effective delivery of both undergraduate and postgraduate lectures and workshops, and self-guided study. A concluding chapter that focuses on the development of one’s self-leadership ultimately facilitates a comprehensive introduction to what is at once a seductive, complex, transformative and alluring topic.

How To Develop The Leadership Characteristic Already Within You Leaders change the world. Leaders inspire others. Leaders live their passion. Knowing what you want and where you are going is vital. The next step is picturing, in your mind, exactly what you want down to the smallest detail. However, the most important piece of the puzzle is your WHY - the reason you want whatever it is you want. Without that it's game over. Courage You may have your purpose, but do you possess the guts to tell the world and follow it through. Courage needn't be loud and
aggressive, more often it's a voice in your mind which compels you to keep trying. Integrity Are you honest? Do you speak what you believe? Do you set the example for others to emulate? Are you a person of their word? Are you committed to becoming more than what you already are? Did you answer yes to all the above? Integrity is built upon these questions, leadership is built upon integrity. Humility The initial response to leadership and humility brings up images of oil and water - they cannot go together. On a second look you will find humility running through every great modern day leader. The role of a leader is to serve the people following them. Can you think less of yourself and more of others, to best meet their needs? It's not as easy as it sounds. Self Discipline If you cannot control yourself you will NEVER have the control of others. You will never be able to keep a team around you who will complement your strengths and enhance your weakness. Without those people the dream is just that, a dream, and will never become reality. Planning The first words that come to mind are usually - not again- accompanied with an eye roll. Many great people have said what I'm about to say - if you fail to plan you plan to fail. A plan is like the foundations when building a house. Without them all the work that's supposed to be carried out on top, will eventually collapse on itself. Influence The number one skill needed to be a great salesman and one of the 12 pillars of leadership. Influence is the ability to help people see what you see, to paint them the picture of how you see the future and for them to say -I want that too!- Decision My parents can't make a decision and it's frustrating as hell, especially when we go out for a meal. I ask them where they would like to go, I always get the same response -I'm easy-. A's mad as this makes me I realised - people will not follow a leader who cannot decide what to do. Listening Sorry to break your bubble, but you are not going to have all the great ideas. you are one mind among billions, someone else will have the same motives as you and will be able to help. Listen to them and by listen I don't mean hear what they say, actually listen with the intent to understand. Responsibility Can you handle it? The pressure, the weight of the dream on top of your shoulders. If you can't, would you turn down a new opportunity? Many people do! Communication You have the vision, the courage and the best plan since Steve Jobs released the iPhone, but can you tell me so they fully understand it without it taking a long time? It's not easy, but if it was everybody would be able to do it. Entering Help the people who follow you by sharing what you know. Not only do they learn, every time you share an idea you get to hear it again and again and again - repetition is the mother of skill.

This book is dedicated to everyone who has ever had a dream, but then struggled to achieve it. These words are dedicated to all those, who are ready for true grace and inspiration to enter their lives, in a very real way. In "Just Believe" you will enter a world of unconditional love, for yourself and your life. Imagine no longer being stopped by fear, excuses, or the need to be perfect. Imagine seeing your heartfelt dreams and desires realized, inside a spirit of play. What would open up for you, if you let go of the constraints of disempowering thinking? This is your invitation to enter a New World of Self-Belief, where you can know peace in the present, and an unshakeable faith in your future. This is exactly what's needed to live a life fully Self-expressed, from the Soul, rather the self-critical conversations that keep you from experiencing the true gift and beauty of your life! In these pages you'll find the confidence and love to let your light shine as brightly as it can! You are amazing; it's time to claim it! Elari Onawa

I publish writings as they remain relevant anytime. I have seen a lot of good writings in the internet, in magazines and newspapers. But most writers have only one or two articles and therefore not enough material to be published as a book. A nd yet, many of them need to be published. So the idea of collecting all these various writings hit me. I myself cannot come up with enough material. I decided to offer my services to publish anybody's worth-while writings in one fairly good sized book, in paperback or pocketbook form. Their ability to publish is solved in a nutshell. There are also writers who write a lot but never publish them. There are also old books with no more prints available. The solution is to publish/reprint. I am offering these services free of charge because of the availability of print-books-on-demand (POD) system nowadays. I can produce the book, but it's not entirely free of cost on my part. I merely assume the cost.Why put your writings in a book? A nd not just in the internet? I recommend that writings be retained in a hard copy or in book form or printed form for posterity. This professional book examines the concept of engaged leadership. Specifically, it focuses on the need for leaders in personal and professional realms, for-profit and non-profit, to understand the importance of engagement in order to achieve enhanced satisfaction and motivation among stakeholders (including employees, shareholders, investors, supporters, customers, suppliers, the community, competitors, family, and partners), and hence, an augmented level of designed thinking, which leads to increased innovation and on-going leadership development. Divided into three sections— engaged leadership development at the personal level, implementation at the organizational level, and manifestation in practice— this book provides professionals, practitioners and policy
makers as well as students with the tools and skills to lead actively and conscientiously and help them understand the importance of creativity and compassion for development. Engaged leadership operates on the fundamental principle that leaders have to first and foremost perceive themselves as leaders, and then engage in design thinking, as they will need to develop strategies to reach, encourage, and positively appeal to these stakeholder groups. Leadership is neither limited to those holding formal managerial position, nor to any particular setting. Leaders can be found everywhere, in all layers of society. Leadership is only possible, however, if one dares to perceive and define oneself as a leader. And only when leadership is adopted as a reality within one's personal perception, can engaged leadership be applied. Featuring contributions from academics, scholars, and professionals from around the world, each providing cases, interactive questions and reflective notes, this book will be of interest to professionals, practitioners, policy makers, students and scholars interested in creative leadership, management, organizational behavior, and governance.

The famous classic Scottish tale based on the true story of a dog's lifetime devotion to his master, first published in 1912, loved and widely read the world over. Bobby, a sparky silver-haired Skye terrier, adopts lonely shepherd Auld Jock, for his master and the two become inseparable. When Jock is dismissed by the farmer he tries to find work in the city, but sinks into poverty and dies, having suffered one cold winter too many. The farmer tries to reclaim Bobby as a pet for his daughter but the little dog remains faithful only to Auld Jock, guarding his master's grave in Greyfriars KIrkyard in the heart of Edinburgh's old town. By day, he plays with the local orphans and eats at a nearby tavern but, in spite of anything even the Lord Provost himself can do, Bobby returns each night to sleep by his master. Bobby's devotion changes the lives of those around him and ultimately the conditions of the poor in Edinburgh. And as the years go by, the little dog's loyalty is rewarded in a very special way.

In life, our "ideal" doesn't always match "reality." There are "gaps." While we know we want to be more understanding and compassionate toward others, we have a difficult time making it happen. Why is it that these "gaps" exist? The primary reason for our inability to bridge these gaps is the "mediocre mind." The "mediocre mind" exists due to invisible factors that escape our awareness and it prevents us from breaking through and unleashing the pure potential and greatness we all possess within us. By implementing five simple strategies, you can get started on the road toward more happiness, health, prosperity and success. If you're looking to improve your relationships with those around you, or if you're seeking success or increased fulfillment in life, the power is already within you to make it happen. By applying the five core principles shared in this book, you can learn how to unleash your personal greatness today!
